

ABHAY BISHT

9639147660 | abhaybishtstudent@gmail.com | [LinkedIn](#) | [Portfolio](#) | [Leetcode](#) | [GitHub](#)

Full Stack Developer with experience in building and optimizing both client-side and server-side applications. Proficient in Node.js, React, PostgreSQL, and RESTful API development. Strong foundation in database management, application architecture, and scalable system design. Adept at working on full-stack solutions to deliver end-to-end functionalities.

EDUCATION

Masters: MCA | Uttaranchal University, Dehradun

2023 – Present | 80%

Bachelors: B.Sc | Sri Dev Suman University, Tehri

2020 – 2023 | 64%

Intermediate | S.G.R.R. Public School, Kotdwara

2020 | 79%

High School | S.G.R.R. Public School, Kotdwara

2018 | 84%

PROFESSIONAL EXPERIENCE

SDE Intern (Full Stack Developer) | Excelling Technologies

June 2024 – Present

- Developing scalable backend services using React-Native and Expo.
- Designing and managing ORM Frameworks to optimize query performance.
- Creating and integrating RESTful APIs to enable seamless communication between frontend and backend systems.
- Implementing responsive and user-friendly interfaces, adhering to best practices in UX/UI design.

PROJECTS

Real-Time Chat App | April – May 2024

Tech Stack: *Node.js, WebSocket API, Render.com*

- Developed a real-time chat application using Node.js and WebSocket API for instant messaging.
- Implemented features like message broadcasting, typing indicators, and user authentication.
- Deployed the application on Render.com, ensuring reliable and scalable performance for real-time interactions.
- Optimized server-side code to handle multiple concurrent connections efficiently.

YouTube Video Downloader | January – February 2023

Tech Stack: *Node.js, FFmpeg, Heroku*

- Developed a web application that allows users to download YouTube videos.
- Managed video and audio stream merging using FFmpeg.
- Deployed the application on Heroku, ensuring smooth and scalable performance.

SKILLS & OTHER

Full Stack Development: React, Node.js, Express.js, RESTful API, WebSocket API, PostgreSQL, Docker

Frontend Technologies: React, HTML5, CSS3, JavaScript, TypeScript

Backend Technologies: Node.js, Express.js, WebSocket API, PostgreSQL, MySQL

Tools & Technologies: Git, Docker, Heroku, Render.com, FFmpeg

CERTIFICATIONS

- Machine Learning - AcmeGrade
- Data Analyst - Coursera
- MySQL Certificate

ACHIEVEMENTS

- Successfully deployed a YouTube Downloader application with over 1,000 downloads.
- Developed and deployed a real-time chat application, managing multiple concurrent connections effectively.
